AALIANCE2

European Next Generation Ambient Assisted Living Innovation Alliance

Objectives

The coordination action AALIANCE2 acts in the Ambient Assisted Living (AAL) field to promote the enhancement and the diffusion of products and services that favour independent and active ageing, provide personalized healthcare and improve Quality of Life for senior citizens.

AALIANCE2 aims at being an inter-sectoral platform for linking and providing guidance and recommendations to different AAL stakeholders (industry and public research representatives, users, vendors and service providers), in order to favour the enhancement and the deployment of AAL products and services in Europe.

Actions

AALIANCE2 will contribute to the growth and diffusion of AAL products and services through:

- the enhancement of the AALIANCE sustainable network involving the major AAL stakeholders from European Member States;
- the development of AAL Roadmap and Strategic Research Agenda, extrapolating current technology trends and outlining future research needs;
- information and provision of recommendations about upcoming standards and certifications required in the AAL development and research;
- the identification of the current barriers in the AAL market, the definition of priorities for service delivery research and the development of associated business models to facilitate AAL market growth across Europe;
- the investigation about the state of the art and market developments in AAL in North America and Asia and establishment of links with relevant stakeholders in these regions.

Join the AALIANCE Network!

As member of the AALIANCE Network you have the opportunity to:
